506 North Berendg Street,
Hollywood 90004,
California.

192 OVERDALE ROAD
DOWNEND, BRISTOL
BS16 2RJ

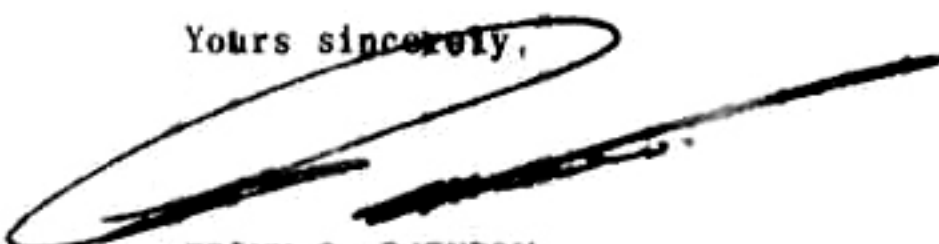

June 10th 1970

Dear Mr. Borel,

Thank you for your letter which has been passed to me after returning from a business trip and I am pleased to supply the following information.

- (a) Swallow manufactured 220 complete Doretti cars of which I believe about half were exported to the U. S. A.
- (b) Manufacture ceased because of political considerations from the main controlling Company (Tube Investments Limited) since the car was competing for sales against car manufacturers with whom T. I. were doing substantial business.
- (c) Car No. 1042 was manufactured by Swallow as the numbers started at 1001. No other firm was ever involved in any way on spares or assembly.
- (d) I suggest you contact my good friend, Mr. Arthur Andersen, 3501 West 78th Street, Inglewood, 4, California who was primarily responsible for the Doretti car being manufactured in the first place and who was the main Importer and Distributor in the U. S. A. He can tell you everything about Doretis. I shall be very interested to hear of your progress.

Yours sincerely,

FRANK G. RAINBOW
